PROFILE

A dedicated and self-motivated Software Engineer with 2+ years of professional experience in modern web technologies, including .NET, Angular, and React. Eager to take on new challenges, continuously develop technical skills, and contribute to building efficient and scalable software solutions.

WORK EXPERIENCE

Software Engineer - Medcube USA

March 2025 – Present

- Developed the Patient Kiosk Application with secure login, improving data security and reducing manual work.
- Built Billing and EHR features using .NET Core, Angular, and MS SQL Server, enhancing workflow efficiency.
- Integrated SMS and Email communication, improving patient interaction.
- Implemented Voice Detection & Voice-to-Text Summarization with the AI team, reducing documentation effort.
- Implemented report print and download functionality, improving data accessibility and user convenience.
- Managed development and Dev/QA releases across environments, ensuring smooth deployments.
- Fixed high-priority bugs and implemented new features, improving system stability and performance.
- Conducted client demonstrations and explained new features, increasing user adoption and satisfaction.

Software Engineer Intern - Omobio (Pvt) Ltd

February 2023 - August 2023

- Developed Omobio's new-generation website using SvelteKit, TypeScript, and Tailwind CSS, improving the user experience.
- Implemented dynamic UI components and integrated the frontend with Sanity CMS for efficient content management.
- Contributed to backend development of the Call Detail Record (CDR) system using PHP Yii and Java.
- Fixed critical bugs and implemented new features to improve system stability and performance.
- Executed test cases and reported defects to ensure software quality.
- Participated in client meetings and worked in an Agile/Scrum environment using GitLab, Docker, and Jira.

EDUCATION

University of Moratuwa

January 2020 - December 2024

BSc (Hons) in Information Technology and Management

GPA: 3.08 | Second Class Honours

G.C.E. Advanced Level

2018

Ibbagamuwa Central College

Passed with 3A's | Z-score - 1.8015

SKILLS

- **Programming Languages** - C#, Java, Python, C, JavaScript, TypeScript
- **Frameworks & Technologies** - .NET Core, Angular, ReactJS, Spring Boot, Svelte, PHP
- **Web Technologies** - HTML, CSS, Tailwind CSS
- **Databases** - Microsoft SQL Server (MSSQL), MySQL, MongoDB, Firebase
- **IDEs and Text Editors** - IntelliJ IDEA, Visual Studio Code, Visual Studio, Cursor
- **Tools & Platforms** - Azure DevOps, Docker, Jira, Trello, Selenium, Postman, Unity Hub, GIMP, Figma
- **Non-Technical Skills** - Communication Skills, Leadership, Self-Learning, Teamwork, Quick Learner, Time Management

PROJECTS

ClaudMD - Healthcare System

2026

- A modern healthcare management platform supporting patient care, appointments, billing, EHR, and clinical workflows and AI-powered voice-to-text summarization.
- **Role:** Full-Stack Developer | **Technologies used:** C#, .NET 7.0, Angular 16, MS SQL

Kioski - Healthcare System

2026

- A patient-facing system that allows secure login and enables patients to fill consent forms and other test-related forms efficiently in healthcare facilities.
- **Role:** Full-Stack Developer | **Technologies Used:** C#, .NET 7.0, Angular 16, MS SQL

Reservation Hub - Restaurant Reservation System

2026

- Developed a full-stack restaurant reservation system that enables customers to book tables and view digital menus while restaurants manage seating and bookings in real time.
- **Role:** Full-Stack Developer | **Technologies Used:** ReactJS, ASP.NET Core, MS SQL

Luxe Leather - E-commerce Platform

2026

- Developed an e-commerce platform for a leather fashion brand, featuring products such as footwear, handbags, caps, and other accessories, with product browsing, cart, and order management functionalities.
- **Role:** Full-Stack Developer | **Technologies Used:** ReactJS, ASP.NET Core, MongoDB

Enginex - Industrial Engineering & E-Commerce Ecosystem

2025

- Developed a multi-functional platform for industrial innovation, integrating technical engineering collaboration, instant 3D prototyping, and a premium retail experience.
- **Role:** Full-Stack Developer | **Technologies Used:** ReactJS, ASP.NET Core, Firebase

Automated Prescription Detection System in Machine Learning - Research Project (Level 4)

2024

- Developed a system to accurately read handwritten prescriptions, convert them into readable text, and suggest correct drug names and usage instructions by identifying spellings, abbreviations, and partial names.
- **Role:** Machine Learning Developer | **Technologies Used:** Machine Learning, CNN, LLM, Python, OpenAI

EXTRACURRICULAR ACTIVITIES

- IEEE Student Branch, University of Moratuwa (2021–2022): Editorial, School Coordination, and Technical Committee Member.
- AIESEC, University of Moratuwa (2020): Incoming Global Volunteer (IGV) Committee Member.
- LEO Club, University of Moratuwa (2021): Coordination Committee Member of Literia.
- Intecs, Faculty of Information Technology, University of Moratuwa: Member.
